

Hailey Zweedyk

Hudsonville, MI | (616) 323-5726 | haileyzweedyk@gmail.com |
LinkedIn: linkedin.com/in/haileyzweedyk | **GitHub:** github.com/HaileyZweedyk

EDUCATION

Grand Valley State University

Bachelor of Computer Science

Cumulative GPA: 3.25

Relevant Coursework: Data Mining, Machine Learning, Database, Statistics, Python Programming, Data Visualization

Allendale, MI

Expected Dec 2026

PROJECTS

Diabetes Classification

Apr 2026

Python (scikit-learn, Pandas, NumPy, Matplotlib, Seaborn), Tableau

- Analyzed **100K patient records** to identify key predictors of diabetes; found HbA1c and blood glucose levels as the strongest indicators, with age and BMI as supporting risk factors
- Built and evaluated Decision Tree, AdaBoost, and Random Forest models; selected AdaBoost for highest recall to reduce missed diagnoses in a medical context
- Developed visual insights and dashboard using Python and Tableau to communicate trends, model performance, and feature importance

Breast Cancer Classification CNN

Apr 2026

Python (TensorFlow/Keras, Pandas, NumPy, Matplotlib, scikit-learn)

- Developed a ResNet50-based CNN using transfer learning to classify ultrasound images (benign, malignant, normal), achieving **91% accuracy**
- Improved malignant tumor detection by applying class weighting, increasing malignant recall from **<60% to 90%**, reducing risk of missed diagnoses
- Implemented staged fine-tuning and regularization (dropout) to improve generalization and prevent overfitting on a limited dataset

EXPERIENCE

Network Connectivity Intern

Cascade, MI

Applied Innovation

May 2026 - Present

- Diagnosed network connectivity issues involving DHCP, DNS, and SMTP for multifunction printers.
- Remotely installed and configured printer drivers and software while guiding end users through technical issues.
- Escalated cases requiring advanced troubleshooting to customer IT teams or internal leadership.
- Maintained first-contact resolution rate of **80%**

Barista

Allendale, MI

Starbucks

Jul 2023 - Aug 2026

- Maintained accuracy and consistency while handling high-volume transactions and orders

SKILLS

Programming & Tools: Python, SQL, Tableau, Git, Linux Terminal, Agile

Libraries & Frameworks: Pandas, NumPy, scikit-learn, TensorFlow/Keras, Matplotlib, Seaborn

Data Analysis: Exploratory Data Analysis (EDA), Data Cleaning, Feature Engineering, Data Visualization

Machine Learning: Classification (CNN, Decision Trees, Random Forest, AdaBoost), Regression (Linear), Model Evaluation (Accuracy, Precision, Recall, F1-score), Class Imbalance Handling, Transfer Learning

IT & Support: Remote Desktop, Ticketing Systems, Root-Cause Analysis

Certifications: IC3 Digital Literacy, MTA HTML5 App Dev, MTA Intro to Programming (HTML/CSS)
